

# Preparing for the "Soil Deal for Europe" Mission

PREPSOIL facilitates the deployment of the "Soil Deal for Europe" mission across European regions, by helping key players beyond the agriculture field in reducing soil degradation, while increasing soil awareness and soil literacy.

## Supporting the creation of 100 Living Labs for the EU Mission "A Soil Deal for Europe".

PREPSOIL will act as a one-stop-shop to boost networking and knowledge exchange between communities active at a regional and local level on soil health throughout Europe addressing all types of land uses based on the work undertaken in existing and new Living Labs and Lighthouses.

## What's in it for Living Labs & Lighthouses?

Visual Atlas of Living Labs & Lighthouses

Overview of Soil Health initiatives across Europe that are active or starting their activities as a Living Lab and Lighthouse to facilitate knowledge exchange, networking and the creation of consortia.

Recommendations for the creation of Living Labs

Service Package to accelerate adoption and maturity of Living Labs and Lighthouses in different land use contexts. **Summer 2024**
